

AMENDMENTS TO THE SPECIFICATION

Please replace paragraph [0024] with the following amended paragraph:

[0024] If the height of the driver's seat 2 is adjustable, the height of the fastening point 13 (Fig. 2) of the mechanical connection 6 can also be adjustable to make possible comfortable entry and exit. This height adjustment can be realized by means of a technology that is conventionally used for such applications, such as the guidance of the fastening point 13 in a rail 50 with catches or notches 52, or a simple detachable screw connection, just to name a few.
